Newest In Hog Farrowing Houses

Shown above is J. S. Caldwell's hog farrowing house located on his farm near Concord. Caldwell operates one of three test demonstration farms in the county. This new farrowing house can accomodate 11 sows. Each 8½ by 11 ft. pen features crate, infra red heating unit and automatic trip switch for drinking water. An exhaust fan helps maintain proper humidity. Full insulation in the building protects young pigs from cold and heat.

Longwood Seniors Begin 8 Weeks Student Teaching

Six Longwood students began student teaching in Appomattox schools on Monday, Nov. 12. Miss Margaret Vaughan, of Ashland, Va., will assist Mrs. Ivy Holland in teaching two sections of Algebra II and advanced high school mathematics. She will also work part time with program learners in trigonometry.

Miss Beth Goodwyn will teach Spanish in James Hall's class and English under Mrs. Frances Cheatham's direction.

Other students working in the Elementary School are Miss Betty Stack, 5th grade, Miss Faye Stone, 7th grade, Miss Joyce Outland, 4th grade and Miss Mary Warren, 2nd grade.

Chief Cook And News Reporter

Miss Margaret Moon, who is the cafeteria worker at Spout Spring Elementary School helped get the news for a TIMES-VIRGINIAN article on National Education Week. She called the news office later to tell us that we had termed her an "instructor" in the write - up, which she is not.

Weather instructor, secretary, or cook, we appreciate the help of all the fine people around in reporting the news. Without them we could not possibly cover all the county happenings. And we understand that Miss Moon is a very popular member of the Spout Spring staff, working cheerfully and well to feed all the children here.

Luncheon Given

Miss Nancy Oxford, November bride - elect, entertained her attendants at a luncheon in Lynchburg. Those attending were Mrs. Donald Ferguson, Mrs. Robert Chenault, Miss Patsy Seay, Miss Shirley Overstreet, Mrs. Paul Doss, and Mrs. John Oxford, mother of the bride - elect. The Oxford - Chenault wedding is planned for Nov. 24 at 7:30 p.m. at the Memorial Methodist Church.

Closing Dates Old Belt Markets Are Announced

Last week on the Old Belt flue-cured tobacco markets, average prices were generally unchanged to a little lower when compared with the previous week. Quality of offerings showed very little change reports the Federal-State Market News Service.

Deliveries to markets were not as heavy, as the 1962 marketing season is fast drawing to an end. Because of lower prices receipts of the Stabilization Corporation increased. Lawrenceville has set their closing for the season November 16 and Petersburg, November 21.

For the week ending November 9, gross sales totaled 30,062,532 pounds for an average of $61.73 per hundred. The average was 45 cents under the season high of a week ago. Sales for the season were placed at 258,141,550 pounds averaging $60.76.

Sales by states follow:
Virginia — 17,116,418 pounds, $63.05 average; North Carolina — 12,946,114 pounds, $59.92 average.

Declines in grade averages were $1 to $3 per hundred; however, a large number of grades showed gains ranging from $1 to $5. Increases were chiefly for leaf. Principal marketings were for primings, low smoking leaf, fair lugs and low cutters.

Receipts of the Stabilization Corporation this week increased to around 29 per cent of gross sales. Season deliveries stand at a little over 28 per cent. The support level for all tobacco offered this week in this belt, regardless of whether placed under loan or not, averaged $59.36 per hundred. For the season the support level has averaged $58.16.

Sales were suspended Monday, Nov. 12, in order to observe Veterans' Day.

"The Pay Off"

The TIMES news staff has been named "nosy" on more than one occasion. On Nov. 12 came the "pay off." Eighth grade home ec girls were entertaining the principal and their home ec teachers at a party. Occasion was the end of a unit on foods, and their special project was to learn "How To Be a Hostess."

Now we know "how to be a guest." At Appomattox High, simply "walk in the door." The punch and cookies were delicious.

Small Business Men & Gov't Contracts

Guidelines to assist small firms in obtaining Government contracts and subcontract work are contained in a new brochure now available on request at the Command, Va. office of the Small Business Administration, located at 1904 Byrd Avenue, Mr. Clarence P. Moore, SBA Regional Director for this area, announced today.

"Issuance of the new brochure, **How Small Business Can Obtain Government Contracts and Subcontracts**, is another step in SBA's continuing program to help more small firms participate in Government work," Mr. Moore said.

"The United States Government is the world's largest single purchaser of goods and services, and it is important to the national welfare that small firms get a larger share of there orders, either as prime contractor or subcontractor."

In addition to telling how SBA helps small firms sell to the Government the new brochure discusses the following: Joint Set-Aside program; Prime Contract Information; Facilities Inventory; Source Program; Subcontracting Program; Certificates of Competency, and Contract Opportunity Meetings.

VEPCO Partner In This Atomic Power Plant

Dedication ceremonies for this $46.5 million nuclear power plant of the Carolinas Virginia Nuclear Power Associates, Inc., at Parr, S. C., were held recently. The reactor-turbine and control buildings are at left; the vapor container dome is in the center; the superheater is to the left of the dome; and the spent fuel container is to the right of the dome. In the left background is an existing steam generating plant, the turbines of which will be powered by steam from the new nuclear plant. Virginia Electric and Power Co., is one of the four companies in two states composing the Associates. The station is designed for research into the best methods and materials for generating electricity with atomic energy.

38 Local Ball Fans See Redskin Game

A busload of Jaycees and their friends traveled to Washington on Sunday, Nov. 11 for the Redskin - Cleveland Browns professional football game.

The Redskins obliged with a 17-9 win. Jaycees reported beautiful warm weather, and a capacity crowd at the stadium. They sat across from TV cameras, and are wondering if anyone at home saw the 13 ft. banner they displayed which reads "APPOMATTOX REBELS".

Ralph Kirg, of West End Markets, furnished refreshments inside the bus as Jaycees traveled. This trip was so successful that future plans may include a baseball game next season, one Jaycee stated.

Odds 3 To 1

A busy mother had an even busier day not too long ago. Three cows wandered off from their field, and were taken back to the pasture three times. Then a mother duck decided that it was time for her young ducklings to leave the nest — located at the top of a hay loft.

Down came the ducklings — away went the cows, and the mother involved didn't know which way to chase what.

The cows were finally securely fenced in — the ducklings were given more permanent quarters on the ground, and one tired mother decided that her four children are not as hard to keep up with as the roving cows and flapping ducks.

Rules Change In Girl's Basketball

Coaches Gordon Bragg and Walter Carson, along with Bob Montgomery and others of this area attended a Virginia High School League Basketball rules clinic last Tuesday at the E. C. Glass High School, Lynchburg.

Rules changes for the new season include one which permits a floating guard or forward on girls' teams.

The basketball rules clinic, one of 15 scheduled for the state, was conducted by Earl Gillespie, assistant executive secretary of the Virginia High School League.

"What's A Huddle?"

"I've always wondered what the football players talk about in that 'huddle' on the field", remarked one fan miss the other day. It's rumored that she's been chosen to PLAY on the Ladies' Football team Friday night — another great reason not to miss this Football Classic!

Bowling Winners

The Appomattox Bowling League announced the following scores for games from September to November:

	Won	Lost
Renegades	15	6
Garment Co.	7	7
Oakville	12	9
Independents	10	11
Grimis Motor Co.	6	15

High team was the Renegades with 1620. High set for three consecutive games the week of Nov. 4 was Cecil Wooldridge with a score of 384. Highest single game during the same week was also Cecil Wooldridge with 158.

The bowlers meet on Monday, Tuesday, and Thursday nights at Jamerson's Bowling Alley, Appomattox.

One Report Missing

One Rescue Squad member was reminded not too long ago that one of his Squad calls was omitted from his monthly report.

He was called to a resident's home to examine and lift a beagle hound to an automobile for a hurried hospital trip. Seems that the dog was struck by a "hit and run" truck, and the owner could think of no better service to call than the RESCUE SQUAD.

The beagle is now doing fine, with a fractured leg mended, and a bark or two of appreciation to a dog lover who is willing to be of service to man AND "man's best friend."

Tour Transco Plant

Pamplin 7th Grade 4-H members toured the Transcontinental Gas Pipe Line Corporation installation on Friday, Nov. 9. Robert Leffers, general manager conducted the 16 members, John McLean, their school instructor, and other adults through the buildings and around the grounds. Located about three miles outside Appomattox.

DAR Meets

The Appomattox Chapter of the DAR meets Monday, Nov. 19 at 2:15 at the home of Mrs. George F. Abbitt, Jr. Co - hostess will be Mrs. T. M. Trent, and the local Regent, Mrs. J. B. Terry, will conduct the meeting.

Crash Victim Returns Home

James E. Totty, of Spout Spring, returned home from the hospital Tuesday where he has been confined since his automobile was struck by a Longwood College bus on Nov. 2.

According to a neighbor he suffered a fractured skull, extensive eye injuries, and severe injuries to one arm in the crash. He is reported to be progressing favorably.

Thanks A Million!

The staff at the TIMES VIRGINIAN says "Thanks a Million!" to Coach Walter Carson, of AHS, for the hours spent and the hundreds of words he has written in covering the football games for this season.

As readers will note, the season was not yet over before Coach Carson and Coach Bragg took off for a meeting with basketball officials, and the beginning of another busy season.

Basketball fans will be pleased to hear that Mr. Carson will assist with basketball game write-ups too.

Council Meets

Town Council meets on Monday, Nov. 19. Sewage disposal and a proposal to enlarge town facilities with the addition of a lagoon type treatment plant will be heard. County Sanitarian G. A. Pitsenberger reports that he will address the members on the subject of the jointly - owned and operated City - County Dump.

A representative of VEPCO is scheduled to speak on street lighting.

Rally In Danville

Local young people leave Friday afternoon for an overnight rally in Danville, Va. Occasion is the annual fall meeting of young people throughout this presbytery. The First Presbyterian Church will be hostess to local young people including Virginia Carolyn Caldwell, Nancy Boney, Sue O'Brien, Phyllis Thompson, president of the local Senior high group, and Tom Evans, who is a member of Presbytery's Council.

Flags Are Flying!

Forty - two American flags have been placed in as many classrooms throughout the county because of a special project of the American Legion Auxiliary of Appomattox.

The Auxiliary each year takes note of classrooms without flags, and this year placed new 50 star flags in the 42 classrooms which lacked them. Mrs. Shearer Robertson is president of the Auxiliary.

FBLA Club

The F. B. L. A. Club held a meeting on Thursday, November 1, in the school auditorium.

Eleanor Ranson, president, presided.

We had a discussion on "Dress Right Week". It was decided that we would dress like business people once a month on our regular meeting day.

For our program each executive member gave a short talk on their duties of the club.

Notice To Taxpayers Of Appomattox County

Tax Bills for 1962 have been mailed. Failure to receive a bill does not relieve a taxpayer of charges that will accrue under the law for failure to pay on or before December 5th. If you have not received your bill, please notify your County Treasurer.

Special Notice To Town Of Appomattox Citizens

Be sure to pay your State capitation tax by December 5th to be eligible to vote in the 1963 Town of Appomattox Election.

Many Factors To Consider In Buying Slip Cover Material

In buying slip cover material you have a great variety of weaves, and a wide range of textures, colors, designs, and prices from which to choose. But there are other factors to consider.

The size of the piece of furniture to be covered will influence your choice of design, as well as helping you decide what width material is your best buy. The fabric should not be too heavy or clumsy to tailor or to handle. Tightly woven material resists dust penetration, and a smooth surface resists soil and wear.

Must the fabric be dry-cleaned or can it be laundered? Whichever method cleaning is used, you need to consider color fastness to both light and cleaning, as well as the percentage of further shrinkage. This applies to the cording and other trim as well. Statements about shrinkage control are found on the bolt, stamped on the selvage, or in a folder supplied by the manufacturer. Yet these precolors insure a high degree of color fastness, and shrinkage is usually found on the selvage of the material.

Some fabrics have finishes which make them spot or stain resistant, or fire retardant. Such finishes may be nondurable, lasting only until the cover is cleaned. Durable finishes last through several cleanings, while permanent finishes last the life of the fabric.

Read carefully the labels on the bolts of fabrics you are considering. Your choice is apt to be wiser if you know what you are buying.

FARM PRICE OUTLOOK

This is the way prospects for Virginia farm prices looked to the Virginia Department of Agriculture on Friday. The Department offers it to farmers with the warning that no one can predict prices and be right all the time.)

Turkeys

There isn't likely to be much rise in turkey prices before Thanksgiving in spite of the fact that there is a reduction in the national supply picture. Marketings of birds to processors for freezing for Thanksgiving is virtually over. A demand for fresh turkeys may bring some rise in prices before the big day. A good disappearance in Thanksgiving turkeys will be a large factor in a better market for Christmas birds.

Supplies in the last quarter are expected to be down by about eight per cent from the same period in 1961. National hatchery data for October indicates a six per cent reduction, and it appears that slaughter will be down even more. Cold storage holdings at the end of October are expected to be down about 17 per cent from last year. Current Virginia production is down 12 per cent, with November expected to drop 29 per cent and December to be up five per cent compared with last year. The shift in Virginia and much of the nation has been to heavier breeds.

Prices: Small type turkeys are bringing 24 to 25 cents a pound; heavy hens 27 cents a pound; and heavy toms 23 cents a pound in Virginia markets.

Hay

If you know now that you're going to be needing some hay this winter, you'd better start shopping around and making arrangements for it before weather makes transportation difficult. You'll get an advantage in price selection and quality if you buy now. Factors point to a strong winter market in hay.

It has been estimated that hay production is down 40 per cent in Pennsylvania and is off approximately one-fourth in adjoining states. Some peanut hay has slowed movement from the Valley to Southern Virginia, but there is a good movement north into Maryland and Pennsylvania. The seasonal trend in hay prices is due to continue up until spring. There is about four per cent less hay supply nationally. Over the last four years hay supplies have declined while roughage - consuming animals units increased, resulting in a 43 per cent reduction in the hay supply per animal unit.

Shenandoah Valley prices paid farmers: No. 2 leafy alfalfa, $30-$35; Timothy, $28; Clover and timothy mixed, $25-$30; First cutting alfalfa, $27-30.

NO COMMENT

WASHINGTON, Oct. 1 — The next Congress will be confronted with impressive demands for legislation to curb strikes that endanger the national defense.

Influential members of Congress have long believed that this is essential. Recent international developments intensify their feelings.

Congress has faced up to this problem in the past when the national security was threatened. Gen. John L. McClellan (D Ark.) during World War II grew out of reckless strikes and threats of strikes in defense industries.

Recognition of the enormous damage that can be done to the whole country by reckless exercise of union monopoly power carried over into peacetime, and resulted in the cooling off period authorized in the Taft-Hartley law.

Sen. The Connally anti strike law Act has disclosed his intention of seeking hearings on two measures he introduced in the last Congress. Since all bills die with the end of this Congress, he will introduce them again next January.

One of these bills would ban strikes in "strategic defense facilities." They are defined to include all steps in producing missiles, munitions, weapons, space vehicles or any part or material essential to make the weapon effective.

This bill grew out of hard experience. Sen. McClellan investigated repeated work stoppages at missile bases. He found that there were many irresponsible strikes which not only delayed missile development but greatly increased costs.

An expert witness told Sen. McClellan that falling behind the Russians in orbital flights could well be ascribed chiefly, to work stoppages at missile bases.

The Senate investigating subcommittee reported:

"The space and missile programs, upon which our survival depends in the mortal struggle with communism, were intolerably delayed by wildcat strikes, work stoppages, slowdowns, and a deliberate policy of low productivity, callously imposed during the 4½-year period by local union officials and local union members, who placed profit and greed ahead of their devotion to the safety of the country."

This report, made seven months ago, will be used by Senators in pressing for remedial legislation.

The second McClellan bill would subject labor union activities in the transportation field to the anti trust laws.

This grew out of the threat of labor union leaders to organize a solid front of unions which could declare strikes in truck, railroad and shipping transportation and thus paralyze the country.

Strikes to achieve unlawful activities under the anti trust laws, such as a national transportation strike, would be prohibited.

"I think it is absolutely necessary that we have this legislation enacted," said Senator McClellan. "We cannot have our missile or other defense facilities idled by strikes.

"The legislation with resard to transportation strikes is necessary. What are termed mutual aid pacts under which one union can join with another could well endanger the economy by paralyzing transportation."

Other senators are ready to fight with Senator McClellan for remedial legislation.

MARY WASHINGTON'S

Baking Fun

AUTUMN is biscuit/muffin time and there's no better way of baking them than with self rising flour. They are a perfect complement to any meal and are sure to please those with that cool weather appetite.

BISCUITS

2 cups sifted enriched Washington Self-Rising Flour
2 tablespoons shortening
about ⅔ cup milk

Cut shortening into flour until consistency of coarse meal; add enough milk to make a soft dough. Turn onto lightly floured surface, knead gently about 10 strokes. Roll one-half thickness desired in finished biscuits. Cut with a floured biscuit cutter, place on ungreased baking sheet. Bake in 450°F. (very hot) oven 12-15 minutes.

BISCUITWICHES

Follow the above recipe, but roll dough ¼ inch thick. Cut with floured cutter. Place a slice of sharp cheese between two biscuits and secure with a toothpick. Bake in 450°F. (very hot) oven 12-15 minutes. For variety, use luncheon meat, ham, or jelly in place of the cheese. Makes 9 2-inch biscuitwiches.

DROP BISCUITS

Follow the basic biscuit recipe, but increase milk to ¾ cup. Drop dough from a tablespoon onto a greased baking sheet. Bake at 450°F. (very hot) oven for 12-15 minutes. For dumplings: Make drop biscuits; drop from tablespoon onto boiling stew. Cover tightly and simmer 12-15 minutes. Makes about 12 dumplings. Add 2 tablespoons sugar to Drop Biscuits for Fruit Dumplings.

QUICK MUFFINS

2 cups sifted enriched Washington Self-Rising Flour
2 to 4 tablespoons sugar
1 egg
1 cup liquid or melted shortening
¾ cup milk

Combine flour and sugar. Beat egg, milk and shortening together; add to dry ingredients, stir until just blended. (Batter will be very lumpy.) Fill greased muffin pans about half full. Bake in a 425°F. (hot) oven 15-20 minutes. Makes about 12 muffins.

FRUIT MUFFINS

Follow Quick Muffins recipe using 4 tablespoons sugar. Add 1 cup blueberries, chopped dates, raisins, grated apple, or crushed pineapple to ingredients. Proceed as directed.

CHEESE MUFFINS

Follow Quick Muffins recipe using 2 tablespoons sugar. Add 1 cup grated sharp cheese to dry ingredients. Proceed as directed.

A valuable addition to any kitchen library is the 40 page book containing these and dozens of other recipes which may be obtained free of charge by writing Mary Washington, 3261 K Street, N.W., Washington 7, D. C. If you have any baking questions, send them along and they will be answered in future columns.

KITCHEN HINTS

Don't have a biscuit cutter on hand? You won't be a square if you roll the dough to desired thickness and cut into squares with a knife? Saves waste also. . . . **Make-Your-Own Pastry cloth** by using a tea towel. . . . The top of a long white sock makes a good cover for the rolling pin. . . . **Make-Your-Own spice jars from the new screw-cap baby food jars. Paint the lids with enameled paint and label. This will brighten any kitchen!** . . . To keep your recipe books soil free, cover with oil cloth that can be wiped with a damp cloth. When the book is open as you work, cover the page with see-through plastic wrap.

Wilkins-Rogers October, 1962 Mailing

Sporting Tips

Everyone knows that bass fishing is the most difficult during the hot midsummer weather —that is, everyone except the unfortunate soul whose fishing is confined to that period during his vacation, says Jason Lucas, Angling Editor of Sports Afield Magazine. He's convinced that it's always poor, that there is never any good or easy bass fishing at the resort he goes to, or anywhere else. Isn't there a way then, that he can get in more than a mere hour or so a day of good bass fishing? There is — fishing at night!

When do they start to bite? Generally around ten, after which hour there may be a long lull in their fast feeding until the last two hours or so before daybreak, which is another fine time to bag a limit of big ones. Don't by any means take this as a rule with no exceptions, for occasionally at least they'll take a notion to feed well between, say, one and three in the morning. The best night of all is a hot, muggy one with clear starlight.

Generally at night you can't see whether you're casting into thick weeds or brush, or whether a big bass you've hooked is heading into such. So it's best to use stronger, heavier tackle than most sportsmen like for daylight fishing.

A rod of solid glass certainly hasn't the good action of a tubular one and, when it's longer than six feet, it has a very inferior action but it is much stronger. So a spinning rod of solid glass not over six feet and for spincast or casting one even shorter is recommended.

Casting tackle, uncustomarily, for the angler who'll learn to use it at night without too many backlashes is also recommended. Some of the new casting reels have such good antibacklashes devices that even the beginner shouldn't have much trouble with one of them at night, provided he sets the device down fairly tight.

Fly tackle with poppers is better than any of the three when you are night fishing for bass, if you can use it well at that time. Use a line that's really
